

## **Our Vision**

*Equipping young people and nurturing talents.*

## **Our Mission**

*Inspiring young people to nurture their potentials and helping them to grow their God-given potentials irrespective of their physical abilities or gender. This is accomplished by;*

- *Building personal relationships with young people and empowering them on their right to be heard.*
- *Helping young people develop their skills, assets and attitudes to reach their full God-given potential irrespective of their gender.*
- *Nurturing young people to grow in their love for Christ and the knowledge of God and becoming people who can share their faith and life with others.*
- *Working with a team of like-minded male and female professionals- volunteer leaders (coaches), committee members, donors and staff to impact lives of others.*
- *Impacting young marriages and families, and engaging them in experiences that are fun, adventurous and life-changing through institutional engagements.*

## **Membership**

FamilyLine starts with persons who are concerned enough about young people (including Kids) to go to them, on their turf and in their culture, to build bridges of authentic friendship. **Membership** is open to professionals who are interested in helping the group to achieve its vision and mission.

## **Projects**

- **Education**

Familyline involves clients in strategic activities to ensure the holistic development of the young people beyond the classroom engagements in line with the SDG 4 and 5 (quality education and gender equality). This is done through workshops for the purpose of impacting fresh knowledge, fieldtrips for the purpose of expanding their horizon and bring them near to realia to enhance their understanding.

- **Health**

FamilyLine works together with relevant organizations to promote the health and well-being of young people through relevant health outreaches. This is done with volunteers from accredited health institutions with whom we are ready to partner to achieve cooperation in line with SDG 3 and 6.

- **Exchanges**

We are engaged in national and international exchanges aimed at offering young people the opportunity to explore new environments and become open minded individuals. In these exchanges, a life-long opportunity is offered for participants to teach and to learn with persons from different nationality in line with SDG 17.

- **Internships**

FamilyLine offers an avenue to partner with learning institutions all over the world. An opportunity for learners to have practical internships away from their home countries or towns. We provide professional guide to participants of such programmes through our well-trained team of honest people.

- **Charity**

FamilyLine raises funds and receives donations to support our volunteer activities. The donations are used to create an environment for the development of the young people we engage. These donations may be in the form of direct cash, health materials and payment of health bills, educational materials and payment of fees for young people. These donations are done to support the development of the young people we engage to reduce inequalities among young people, which is in line with SDG 10.

- **Environmental Development Advocacy**

FamilyLine carries out and promote environmental improvements and practical conservation activities to educate, encourage and support the local population in health and environmental practice by working with statutory and non-statutory agencies. We are committed to the environmental health and we teach clients to be involved in this, in line with SDG 12 and 13.

- **Events**

Organise conferences (New Life Conference), training courses (Professional) and events (Street Praise, Worship Experience, Environmental Advocacy, FamilyLine Nature Visits and Excursions, FamilyLine Global Tours, Talent marketing symposiums, etc.).
